**Guest Speaker:** Nicole Baumeister, ADRC of Southwest Wisconsin (introduced by Doreen Hlavaty)

Nicole Baumeister grew up in and graduated from Boscobel in 2008. She earned her bachelor's degree in Human Services and has served in this industry for over 10 years. Currently, she lives in Fennimore with her husband and two sons, ages 2 and 5, and has been with ADRC since January of 2017. Nicole shared several bits of information, perspectives, and resources during her presentation. ADRC is a program that exists in every county. Our program, ADRC of Southwest Wisconsin, serves individuals 17.5 and older in the following counties: Iowa, Lafayette, Green, and Grant. All services are free, confidential, and completely voluntary, providing resources across several facets including personal care, home health, transportation, meals, public benefits, supportive services (including caregiver support), etc. In 2021, their Info & Assistance team of four took over 6,000 calls related to these services. ADRC also facilitates the Senior Dining Sites in our area, 10 of which are in Grant County. Due to COVID-19, they have been a delivery-only service delivered entirely by volunteer drivers. Though they do not charge for these meals, the suggested donation amount is \$3.50 per meal. In 2021, ADRC's food site volunteers delivered 64,481 meals throughout Grant County. Another notable program is their "TRIPS" transportation service program. This service is once again provided by volunteer drivers who are only reimbursed for their mileage and help by taking people to medical appointments such as physicals, chemotherapy, dialysis. In 2021, 94,767 miles were logged across 2,824 trips, all split up among 7 volunteers.

Nicole emphasized that there is no "wrong" question you can ask this agency. ADRC wants you to feel comfortable calling them. If their office can't help you, they will refer you to some other resources. ADRC is unbiased, impartial, provides options and does not gain anything from referring someone to one program or resource versus another. Also, if there are individuals who are willing to volunteer as a meal deliverer or TRIPS driver, ADRC would welcome them. Lastly, they have a Facebook Page where they post-consumer scam warnings and other resources. Search "ADRC of Southwest Wisconsin" on Facebook to follow along!

**Conclusion:** Meeting adjourned at 7:40AM.

*Minutes respectfully submitted by Alaina Reeves, filling in for Secretary Fern Nall.*

## February 18, 2022: Katie Volz

---

**Attendance:** There were 15 members and 2 guests who attended and participated including: Carley Borcharding, Duane Borgen, Tischa Busch (VOOM Guest), Charlie Clark, Howard Crofoot, Hap Daus, Terri Ellis, Dan Engelke, Kevin Haertzen, Bob Hundhausen, Eileen McCartney, Tim Murphy, Melissa Palfrey, Alaina Reeves, Ernie Thalmann, Katie Volz (Guest Speaker) and Ron Weier.

### **Introduction:**

- Howard Crofoot called the meeting to order at 7:01AM
- Pledge of Allegiance was led by Ernie Thalmann, followed by the Optimist Creed led by Melissa Palfrey

### **Announcements:**

- **Guests to Welcome:** Dr. Katie Volz (Guest Speaker) and Tischa Busch from the Platteville School District joining as Charlie Clark's VOOM on Zoom guest.
- **Upcoming Events:**
  - Tomorrow is the SWIS District 2<sup>nd</sup> Quarter Conference in DeForest. Howard will be going to this.
  - 10-12 Tri-Star basketball volunteers are needed at the Fieldhouse on March 26<sup>th</sup>. So far, Eileen McCartney, Alaina Reeves and Dan Engelke have volunteered to help.
- **Special Dates to Remember This Week:**
  - Member Birthdays: Jim Schweigert (February 18<sup>th</sup>)

**Guest Speaker:** Dr. Katie Volz of UW-Platteville presenting on the Fennimore Flag Football Program (introduced by K. Haertzen)

Dr. Katie Volz is a mom, stepmom, wife, coach, and frequent community volunteer on top of her position as a math instructor at UW-Platteville. She has two children who attend school in Fennimore. Katie shared that Fennimore doesn't have a Parks & Rec department, and though there are plenty of organized activities for the older kids, the little kids don't have much for activities to sign up for in the community. A few summers ago, she and a couple other Fennimore moms began discussing the idea of starting a youth flag football league. Utilizing resources from the NFL Flag Football Organization (flag belts, flags, jerseys, and playbooks), the pilot season in 2019 had 112 participants grades 1<sup>st</sup>-6<sup>th</sup>, followed by 91 participants in 2020 and 136 participants in 2021. They also invited small surrounding towns to participate, making it a good way for youth to build friendships outside of their hometown.

Katie seemed most proud of the wide array of benefits the kids get out of this program that extend well beyond football skills. Learning, playing, making friends, getting out of the house, developing skills like discipline, teamwork, sportsmanship, and simply keeping them active NOT in front of a screen are of the many benefits. She is also very satisfied with the benefits that the volunteers made up of parents, grandparents, pastors, business owners, etc. get out of it from coaching, refereeing, scheduling, and working the concession stands. As she put it, these volunteers certainly "get more than they give" by helping with this program.

Katie believes that youth sports aren't just about winning and losing, but also being active, learning from mistakes, and social development too! We agree, which is why we so enjoyed having Katie tell us about the Fennimore flag football program!

**Conclusion:** Meeting adjourned at 7:42AM

*Minutes respectfully submitted by Alaina Reeves (helping Secretary Fern Nall)*

**Guest Speaker: Mareeta Kolman presenting on Grant County Hospice & Palliative Care** (introduced by Doreen Hlavaty)

Mareeta began by saying that the Optimist Club is an awesome organization, and she didn't realize the importance of our group until today. She has primarily worked in long term health care prior to 2001 when she began working with these programs. Mareeta feels that working with hospice is very beneficial as you learn a lot about living when working with the dying. You also learn about yourself and the strength of people.

Hospice began in 1969 when Elizabeth Cooper Ross wrote a book about how we were failing the end-of-life stages for people. People needed more than traditional care. Volunteers started to make progress by talking to legislatures, doing pilot projects, etc. Hospice programs were volunteer run until the 1980s when Medicare started paying for these services. At first, it only covered care for cancer patients and now includes other chronic medical conditions. Hospice is available in all 50 states, Guam, and Puerto Rico. Medicare has strong regulations to ensure patients are evaluated regularly for signs of progression proof of necessity. The end-of-life time is emotionally scary and difficult for patients, their families, and friends. People sign up for hospice when they feel the medication or other treatments aren't working and they want to be at home and comfortable. The average length of stay in hospice is 18 days, some shorter and some longer. Not all people die on hospice – some enter the program and are later dismissed. Services are provided wherever the patient calls home: home, nursing home, family member homes, etc. Care consists of a nurse coming to house to monitor vitals, medication needs, pain, nausea and contact with the doctor. Hospice programs also monitor for equipment needs including hospital beds, oxygen etc. which can be loaned to patients. Mareeta tries to check in weekly with patients to discuss finances, funeral planning, counseling for patients and grieving families, etc. Volunteers are a major part of Hospice. Medicare rules that 5% may be done by volunteers. Some of the services included are in direct care in, providing hope and support, housekeeping, laundry, shopping, dog walking, and reading & writing letters. Office volunteers are needed for filing and mailings activities.

Palliative care is a form of comfort care. People receiving treatment for cancer or other chronic medical conditions can get support at home with a nurse, nurse practitioner, etc. for periodic care and can actively treat disease. Palliative care is not covered

under Medicare, but the cost of a Nurse Practitioner can be billed to Medicare. Costs for bathing, etc. are referred out. This is an up-and-coming kind of care.

Mareeta summed up things this way. Hospice is a program for dying and living, for helping persons navigate as calmly and safely and meaningful as possible. Patients run hospice. Hospice tries to help them meet their needs and wishes including coordinating visits to see kids, vacations, etc. It is patient driven versus medically driven and available 24 hr./day.

**Conclusion:** Meeting adjourned 7:50AM

Minutes respectfully submitted by: Fern Nall, Secretary
